Form a fleet to take on powerful world bosses like the Mechalodon and Ghost Ship.

English I love boarding ships This is a lovingly-crafted niche title that brings back all of the best memories of games like Air Buccaneers.. Mine resources or raid the cargo holds of other players or AI air forts Take the wheel, mount the turrets, grab an axe for boarding action, or try to stay airborne using a repair hammer but beware: every component of your airship can be destroyed so be sure to extract in one piece.. The small, albeit dedicated community is steadily growing and I've encountered very few toxic cretins in my time with the game.. Complete contracts to gain reputation with multiple factions across the Archipelago.

All in all this is an incredible game and well worth your money This is probably the best steampunk airship game out there.. Destroy airships by destroying individual components: an airship without engines can't power it's guns!Unlock 60+ player cosmetics by completing in-game challenges.. 9 GHz Dual Core ProcessorMemory: 4 GB RAMGraphics: NVIDIA GeForce 650DirectX: Version 10Network: Broadband Internet connectionStorage: 400 MB available spaceAdditional Notes: GPUs that do not support geometry instancing will experience degraded performance.. Crew your airship with any number of friends or fly solo against enemy crew and AI controlled encounters across the Archipelago. [Totalmounter Pro 2.01](#)
