About This Game

De Mambo is a 2D platformer where players engage in Mambo Combat. Charge your mouse only one button and release at different times to do three different attacks! Knock your opponents off the screen and break the level however you decide (thanks to some flimsy architecture), to make your game marginally different each time you play.

De Mambo also includes colour accessibility for players, to enhance visibility by editing a palette of player colours that best suit you.

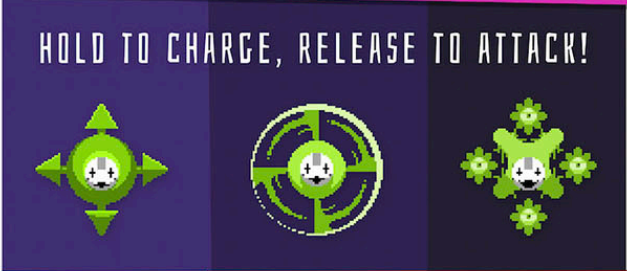

De Mambo is the first game by The Dangerous Kitchen, dedicated to all those who helped us reach this point.

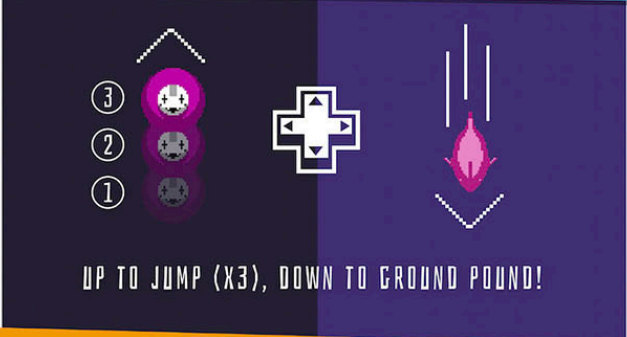

ONE BUTTON WITH 3 ATTACKS!

TAP POKE! MEDIUM RELEASE SPIN! LONG RELEASE FIRE!

MOVE AND JUMP WITH THE DPAD!

UP TO JUMP (X3), DOWN TO GROUND POUND!

EVEN IF YOU LOSE MID-BATTLE, GET A SECOND CHANCE WITH THE LOSER RAIL!

OPEN YOUR MOUTH TO EAT OTHER PLAYERS!

BREAK THE FLIMSY ARCHITECTURE AND KNOCK YOUR OPPONENTS OFF THE SCREEN!

Fantastic game! The multiplayer is brilliant fun with friends and the singleplayer will make you want to play it over and over again to beat your highest score! I'm very glad I bought this game, It's really enjoyable and has a wonderful art style. Can't wait to see what else gets added in the future!. Played the game at EGX a few moons ago. The one-button playstyle, levels that bounce you, and the rail which gives you a chance to get back into the scrap leads to amazing moments of insanity.

The easy to learn, hard to master controls are perfect for multiplayer matches. New singleplayer thangs on the way, too, so if you play alone you'll be covered..
